CW 200

Series 200

**CW 200**

silver

Brushed  
Stainless Steel

RAL

width 350mm  
height 310mm  
depth 25mm

← Size comparison = 145mm →

Battery operated, elegant wall calendar clock designed to easily blend into any environment. Fully automatic time, date and daylight saving.

Very clear, easy to read 3-line calendar clock with time, full weekday and numeric date. The excellent legibility of this calendar clock is the result of the high contrast and wide viewing angle.

The CW200 is the smaller brother of our CW 500 model with a legibility of 10m. A specialty of this design is the full spelling of the weekday. Thanks to the high resolution of 420 segments per line the display has a pleasant appearance. Easy, low cost installation on any wall without cables.

- Battery operated
- Installation without cables
- Full spelling of weekday in several languages
- High resolution characters with 42 segments
- Ultra high contrast display
- Excellent legibility over a wide viewing angle
- 12/24h display option
- User menu for manual setting
- Very low profile, elegant design
- Battery life approx. 3 years
- Low battery indication
- Made in Germany

**A small calendar clock for bank branches, smaller public areas, like lobby/reception areas, chemist shops, general retail, schools, or for restaurants, offices, factories, retirement villages, nursing homes, etc**
