

LCD Time Zone Wall Clock

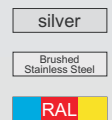

for offices and public areas

CW 600

It's Time

CW 600

width 570mm
height 460mm
depth 40mm

← Size comparison = 145mm →

Elegant time zone display in contemporary design with automatic daylight saving change over for each time zone. Easy installation without cables due to battery operation.

Each position can be user programmed for any time zone around the world. The time displays are fully synchronised and very accurate thanks to the use of a quartz crystal.

The high characters of the time display provide a large viewing distance for medium sized rooms. The time zone titles can be applied by the user or arranged by us.

All segments of the display have a very high contrast with excellent legibility over a wide viewing angle in nearly all ambient lighting conditions.

Install this display anywhere in the building, on any wall, easily, fast and cost effective. No need to run cables. A lovely time piece, indeed!

- Battery operated
- Easy installation without cables
- Ultra high contrast display
- Large time display
- Excellent legibility over a wide viewing angle
- Low battery indication
- User menu for manual setting
- Very low profile, elegant appearance
- Battery life approx. two years
- Made in Germany

An ideal display for banks and financial institutions, public spaces, board rooms, reception areas and retail shops, etc.
